REQUEST FOR UNANIMOUS CONSENT

Senator Swing asked for, and was granted, unanimous consent to have the following communication which was filed with the Committee on Governmental Efficiency, relating to charges involving the action in licensing the Albany Race Track, printed in the Journal.

June 14, 1947

Members of the Senate:

Heretofore, Richard A. Perkins, on behalf of the Committee of Albany Naval Station Veterans, filed with the Governmental Efficiency Committee charges involving the action in licensing the Albany Race Track, and likewise questioning the activities of Frank W. Clark, Jr., while a member of the State Railroad Commission, in securing a lease from the Santa Fe Railway for such track, which charges have been considered by the committee and deemed sufficiently serious to justify a full investigation.

I, as chairman of the committee, have been authorized to cause such charges to be presented to the Senate, and entered in the Senate Journal. Pursuant to such instructions, I am herewith presenting such charges, and request that such charges be entered in the Senate Journal.

RE: *Committee Investigation Albany Race Track*

DEAR SENATOR SWING: On behalf of the Albany veterans group I wish to express the earnest hope and wish that your committee will

soon undertake the investigation which was voted. The situation disclosed at my preliminary appearance before the subcommittee will not improve with the lapse of time; in fact, delay will only render investigation somewhat more difficult.

You may be assured of my full cooperation in developing evidence at the committee hearing.

Sincerely yours,

*Senator Ralph E. Swing, Chairman
Governmental Efficiency Committee
Sacramento, California*

MY DEAR SENATOR: On behalf of the Committee of Albany Naval Station Veterans, which I represent, I wish to lay certain facts before your committee concerning the promotion and licensing of the Albany Race Track.

As a preliminary I shall make clear the private interest which I represent. The veterans committee, composed of persons who at one time or another served at the Albany Naval Station, has endeavored over the past year and a half to gain participation in the promotion and development of horse racing at the Albany Race Track. They have so far been unsuccessful, but in their investigations and negotiations they have acquired the information which is submitted herein and which furnishes probable cause to believe that serious offenses against law and public policy have taken place. Of course we do not ask or expect your committee to further our private interest in the matter. We do feel, however, that the information submitted justifies action on your part in the public interest.

The Albany Race Track, the premises involved, is the property of Santa Fe Land Improvement Company, a wholly-owned corporate instrumentality of the Atchison, Topeka and Santa Fe Railway Company, a common carrier by rail and motor bus both interstate and within the State of California.

An attempt was made by Golden Gate Turf Club to conduct horse racing upon the premises in 1940 and 1941. After the failure of that project and the bankruptcy of Golden Gate Turf Club in 1941 the premises lay idle for a time. The Navy occupied the premises from early 1944 through 1946. In 1945 and 1946 there was renewed interest in the possibility of operating the premises for horse racing purposes. By March, 1946, the Santa Fe had received some 30 inquiries and proposals to lease the premises for such purposes.

Although the Albany Race Track is a valuable property it is obviously only a minor item among the Santa Fe's extensive properties and sources of revenue. The railway's principal business is of course the transportation of freight. The railway is subject to regulation by the

Public Utilities Commission (formerly Railroad Commission) in respect of intrastate operations.

The railway recently leased the premises to Pacific Turf Club, Inc., for horse racing purposes. The facts and circumstances which have come to our attention furnish probable cause to believe (1) that the official influence of Frank W. Clark as Railroad Commissioner was involved in the procurement of the lease and (2) that the lease was granted partly in consideration of freight traffic controlled by the Clark syndicate, thereby creating an unlawful rebate, preference, and discrimination within the meaning of the state and federal laws regulating carriers.

Clark held office as Railroad Commissioner from January, 1943, until January 16, 1947. During all of that time he participated frequently in commission decisions and other proceedings involving the Santa Fe. During the representative period from July 1, 1945, to June 30, 1946, while negotiations for the lease were taking place, Commissioner Clark took part in upwards of 35 commission decisions in proceedings to which the Santa Fe was a party.

In 1945 or early in 1946 Commissioner Clark conceived and originated a scheme to procure a lease of the Albany Race Track from the Santa Fe for himself and persons with whom he might become associated. He was without previous knowledge or experience of horse racing or similar enterprises and it is doubtful whether he possessed any substantial means of his own. Yet he was able to enlist as members of his syndicate a number of persons possessed of substantial means and some who were familiar with horse racing.

Commissioner Clark's arrangement with his associates at the time turned out to be that if successful in procuring a lease from the Santa Fe he was to become vice president, director, and general manager of Pacific Turf Club, Inc., at a salary of \$25,000 a year and was to be given a five-year option to acquire \$80,000 par value of its capital stock at par; his son, Frank W. Clark, Jr., was to become secretary of Pacific Turf Club, Inc., at an undisclosed salary.

Having recruited his syndicate, Commissioner Clark discussed the race track matter with R. G. Rydin of San Francisco, the railway's chief West Coast executive, on several occasions early in 1946. It may be inferred that Commissioner Clark solicited a lease from Rydin. On one such occasion Rydin gave Commissioner Clark advance notice of the railway's intention to go through the form of inviting bids for a lease.

On April 15, 1946, the railway issued a circular letter purporting to invite bids for a five-year lease within 30 days. On May 14, 1946, Commissioner Clark's syndicate submitted a proposal in the names of persons other than Commissioner Clark, whose name was concealed from the paper record of the transaction for the sake of appearances, although the railway of course knew that Commissioner Clark was substantially interested in the project.

Among the names submitted to the railway by the Clark syndicate as prospective shareholders in Pacific Turf Club, Inc., were persons connected with the management of Columbia Steel Co., Studebaker Corporation, Union Oil Co., The Texas Co., Mohawk Petroleum Corp., Gilmore Steel & Supply Co., and Permanente Cement Corp., all of which

control substantial freight traffic which may be diverted to or from the Santa Fe lines.

On or about July 11, 1946, the railway announced that it would deal exclusively with the Clark syndicate, which it referred to as the Young syndicate, Edward R. Young of Los Angeles being one of Commissioner Clark's associates.

On or about August 5, 1946, in response to inquiries by newspaper reporters, Commissioner Clark admitted some connection with the race track project, but stated that he had merely been offered the position of general manager of the race track by the promoters and that "that was the entire situation." He denied that he was a subscriber for shares. He declared that some of his associates were "among the biggest shippers in California" and that "This fact was taken into consideration by the railroad" in awarding him and his associates the lease.

Within the next day or two Judge Robert W. Kenny, then Attorney General, looked into the situation. Commissioner Clark concealed from Judge Kenny the fact of Clark's promotion of the project and his negotiations with Rydin of the Santa Fe, and he related to Judge Kenny the receipt of an offer of a position and declared that "that was the entire situation." Relying on Commissioner Clark's representations Judge Kenney observed that there would be nothing wrong in Commissioner Clark's leaving the state service to take another position. Judge Kenny's informal opinion was in relation to the hypothetical state of facts related to him by Commissioner Clark, and was not intended to be and was not responsive to the actual facts of which Judge Kenny was not informed.

Pacific Turf Club, Inc., a California corporation, was formed December 5, 1946, to exploit the Albany Race Track. Commissioner Clark was one of the original incorporators and directors, as were persons connected with the management of Columbia Steel Co., Studebaker Corp., Mohawk Petroleum Corp., Gilmore Steel & Supply Co., and Permanente Cement Corp.

On or about January 6, 1947, Pacific Turf Club, Inc., held an organization meeting at which Commissioner Clark was chosen vice president and general manager at a salary of \$25,000 annually, he was granted a five-year option on \$80,000 par value of capital stock at par, and his son was chosen secretary of the corporation at an undisclosed salary.

On or about the same date a lease of the race track premises was executed between the Railway and Pacific Turf Club, Inc. Departing from the conditions of the invitation for bids, which specified a five-year lease, the railway granted Pacific Turf Club, Inc., a lease for a minimum term of 10 years with options up to 25 years. The lease provides no fixed or guaranteed rental, but provides for a rental based on a percentage of the "handle," or total amount of money which passes through the pari-mutuel wagering machines at the race track.

It is submitted that the foregoing recital establishes probable cause to believe that the award of the lease to Pacific Turf Club, Inc., was materially affected by Commissioner Clark's official influence (cf. *Matter of Shepard*, 161 Cal. 171) and was partly in consideration of freight traffic, thereby creating an unlawful rebate, preference, and discrimination within the meaning of the state and federal laws regulating carriers (Art. XII, Secs. 21 and 22, Constitution of California; Secs. 17(a) (2), 17(b), and 19, Public Utilities Act; 49 U.S.C. Secs. 2, 3, and 41; *Union*

Pacific v. U. S., 313 U.S. 450, 464; *Baltimore & Ohio v. U. S.*, 305 U.S. 507; *Central of Ga. v. Blount* (CCA 5) 238 Fed. 292; *Cleveland & Ry. v. Hirsch* (CCA 6) 204 Fed. 849; *Matter of Leases and Grants of Properties by Carriers to Shippers*, 73 I.C.C. 671, 683.)

The licensing of Pacific Turf Club, Inc., by the California Horse Racing Board may be of interest to your committee. Its procedure heretofore has been to require the management of a new race track operation to submit a comprehensive 18-page questionnaire giving detailed information concerning the promotion, personnel, and financing of the project, after which the board fully investigates the project, makes the application public, sets it down for hearing on notice, and holds a public hearing at which the matter is gone into fully and interested persons are permitted to present their views. In the instant case the board adopted an extremely summary procedure, although it has long had knowledge and notice that serious questions were involved, and its chairman announced August 6, 1946, that the Albany project would be "carefully scrutinized."

In the summer of 1946, suspecting that my clients had been excluded from participation in Albany racing by unlawful means, I requested the secretary of the board to notify me whenever any application for Albany license was filed, so that I might inspect it, and to notify me of any meeting at which the Albany matter might come up. He agreed to notify me of all board meetings but stated that applications for license were privileged and that I could not see them until they had been acted upon by the board. I then wrote the chairman, who replied by letter dated July 10, 1946, stating that it was my privilege and right to make such inspection and that he had instructed the secretary to make the records available to me.

The board granted 1947 racing dates to the Pacific Turf Club, Inc., on January 6, 1947. (Under the rules such award of dates is only tentative and does not commit the board to grant a license.) The application for license was therefore due on or before January 16, 1947, under the rules. On January 21, 1946, I telephoned the Los Angeles office of the Racing Board to ask whether the Albany application had been filed. On being referred to the chairman and repeating my question to him I was informed that the Albany application was "in process of being filed" but would not be made available to me at that time. I wrote the chairman January 25th repeating my request for access to the application and notifying him that I intended to object to granting the Albany application on grounds of law and public policy. On January 28th the chairman replied, merely stating that he would present my letter to the board at its next meeting.

On the morning of February 7, 1947, the board's office telephoned me to say that there would be a board meeting at 1.30 that afternoon. (Previous notices had been in writing and had given several days' warning.) Soon after the meeting convened the chairman or secretary announced receipt of an application from Pacific Turf Club, Inc., and the secretary announced that it was in proper form. I asked permission to see it and asked that the application be set for hearing on due notice so that I could prepare and present objections based on law and public policy. The chairman asked what interest I had in the matter. I stated that I represented persons who felt that they had been excluded from participation in Albany racing by unlawful means and who also felt privileged as citizens

to present to the board facts bearing on the propriety of licensing Pacific Turf Club, Inc. The chairman then asked Assistant Attorney General Bowers whether a mere unsuccessful bidder for a lease had any right to intervene. Mr. Bowers replied that he thought not, but he did not exclude the possibility of our furnishing information as any citizens might. The chairman then stated that I could not see the application and that the board would proceed to pass on it; he moved approval and Board Member Murphy joined him in a unanimous vote to grant the license, 2-0 (Member Tucker not present.) The chairman stated that I was at liberty to make my objections later in some other way, and in response to my question said that I could see the application on February 10th.

The Pacific Turf Club, Inc., application, which I saw February 10th, bore a file mark dated January 24, 1947. It was very brief and sketchy and omitted most of the information called for by the 18-page questionnaire previously used. It did disclose that Commissioner Clark was a subscriber for shares in Pacific Turf Club, Inc., and that he had been granted the option previously referred to.

Respectfully yours,

RICHARD A. PERKINS

REPORTS OF STANDING COMMITTEES

Committee on Rules

SENATE CHAMBER, SACRAMENTO, June 20, 1947

MR. PRESIDENT: Your Committee on Rules has examined:

Senate Concurrent Resolution No. 23

And reports the same correctly engrossed.

POWERS, Chairman

REQUEST FOR UNANIMOUS CONSENT

Senator Hatfield asked for, and was granted unanimous consent to have the following Tribute to Herbert W. Slater, printed in the Journal:

A TRIBUTE TO HERBERT W. SLATER

from Leland W. Cutler

For a score and a half of years I have counted Herbert Slater as one of my close, true friends. He has been the friend of countless men and all of us like to think that we are within the inner circle of his heart. I know I am because I love him as a boy would love his father and as a man loves his comrade.

Close to Herbert's memory and mine are the members of the Board of Directors of the Slater School of Friendship—Tom Ingram, Fred Handy, Skip Nelson, Joe Nolan, Tom McCormick, Irwin Quinn, Dick Barrett, Dan Burbank, and in humble pride, myself.

Although God took from Herbert one of His greatest gifts, He gave him back a compensating one. Herbert cannot see the color and the form of life, nor with his eyes watch men come and go, but compassed clear within his mind is the understanding of it all. As men take pictures home to contemplate when the day is done, so Herbert in his blindness muses clearly all the things he loves. God made him sensitive to fairness and to chivalry and to the quiet exchange of banter which only friends can give and only friends can take.

We want Herbert Slater to live beyond life's day but never reach the dusk, and as he travels toward the shadow of the night may the clear bright light of friendship's star twinkle fair above the tranquil dawning of an Everlasting Day.

Point of Order

Senator Jespersen raised the point of order that Assembly Bill No. 537 had been amended to change the subject to one not germane to the original subject of the bill, and, in support of his point of order, submits the following opinion of the Legislative Counsel:

Opinion of Legislative Counsel

STATE OF CALIFORNIA

OFFICE OF LEGISLATIVE COUNSEL

SACRAMENTO 2, CALIFORNIA, June 19, 1947

Consideration of Assembly Bill No. 537

By Senate—No. 6021

Hon. Chris N. Jespersen

Senate Chamber

DEAR SENATOR JESPERSEN: You ask whether a point of order can be raised in the Senate at this time as to whether the above bill has been amended in violation of Joint Rule 9 which requires that a substitute or an amendment must relate to the same subject as the original bill.

As introduced on January 20, 1947, Assembly Bill No. 537 would have added a section to the Civil Code relating to the venue of an action to obtain a decree of nullity of marriage. As amended in Assembly on March 27, 1947, the bill would amend Section 817 of the Penal Code

relating to peace officers. Subsequent amendment in Assembly on April 3d and in Senate on April 17th have not changed the subject of the bill as amended March 27th.

Joint Rule 33 provides in part that "If either house shall violate a Joint Rule a question of order may be raised in the other house and decided in the same manner as in the case of the violation of the Rules of such house; and if it shall be decided that the Joint Rules have been violated, the bill involving such violations shall be returned to the house in which it originated, and such disputed matter be considered in like manner as in conference committee."

In view of the foregoing it is our opinion that a point of order may be raised in the Senate based upon the violation of Joint Rule 9 in the other house.

Joint Rule 33 is in effect an agreement by each house that the other house may inquire into and consider the action either house may have taken when the issue is an asserted violation of one of the Joint Rules. A precedent is furnished in this respect by the action taken in 1933 in relation to Assembly Bill No. 289, then pending.

When the bill was before the Senate for consideration a point of order was raised, predicated upon violation, in the Assembly, of Joint Rule No. 9, the rule requiring amendments to be germane.

Upon inquiry it was determined that the Assembly amendment to the bill was not germane, that Joint Rule No. 9 had been violated, and the President of the Senate so ruled, the Journal entry reading as follows:

"The President of the Senate ruled that Assembly Bill No. 289 could not be considered further, because the bill was in conflict with Joint Rule No. 9.

"The Secretary was directed to inform the Assembly that Assembly Bill No. 289 would not be considered further." (Senate Journal, 1933, page 3065.)

That action was taken pursuant to a portion of Rule No. 46 of the Joint Rules of 1933 which was the predecessor of the above quoted provision in Rule No. 33 of this session, but provided no procedure by means of a conference committee for settling the violation.

As to the timeliness of raising such question we note as to Assembly Bill No. 289 of the 1933 session that the bill had been amended in the Senate, read the third time, and passed.

Notice of reconsideration was given and granted and the ruling on this point was made subsequent thereto.

Very truly yours,

FRED B. WOOD
Legislative Counsel
By LAWRENCE G. ALLYN
Deputy

Opinion of Legislative Counsel

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL

SACRAMENTO, CALIFORNIA, June 20, 1947

Hon. Jack B. Tenney
Senate Chamber

DEAR SENATOR TENNEY: You have asked us if Assembly Bill No. 2221 can constitutionally be amended into Senate Bill No. 889, and if Senate Bill No. 889 can be amended into Assembly Bill No. 1434.

In our opinion each of these things can be done.

Assembly Bill No. 2221 makes an appropriation to be expended under the provisions of the Property Acquisition Act for real property for San Francisco State College.

Senate Bill No. 889 makes a similar appropriation for real property for Department of Motor Vehicles buildings.

Assembly Bill No. 1434 makes an appropriation to be expended under the same act for real property for San Jose State College.

In consolidating Assembly Bill No. 2221 and Senate Bill No. 889, it would be necessary to make a lump sum appropriation of the entire amount now appropriated in both bills and then provide that of this appropriation a specified amount, if expended, must be expended only for property for the San Francisco State College and the remainder, if expended, shall be expended only for buildings for the Department of Motor Vehicles.

Amending Senate Bill No. 889 into Assembly Bill No. 1434 could be accomplished by the same process.

In either event a question of germaneness might be raised as the amendatory matter would relate to a subject other than the subject of the original bill.

Very truly yours,

FRED B. WOOD

Legislative Counsel

By JOSEPH W. PAULUCCI, Deputy

In accordance with the provisions of Joint Rule No. 37, we submit herewith an additional report of the Joint Legislative Budget Committee to the Fifty-seventh Session of the Legislature.

PARTIAL REPORT FILED

The Joint Legislative Budget Committee rendered a partial report on March 3, 1947, transmitting the report of the Legislative Auditor to the Budget Committee, analyzing the Budget and Budget Bill for the Fiscal Year, July 1, 1947 to June 30, 1948. This partial report was printed as a supplement to the Senate Journal of March 21, 1947. This report was in your hands for use in considering the Budget Bill during this session. We believe that this report and analysis of the Budget has been helpful in legislative consideration of the largest Budget the State has had. We now wish to render a report on the work of the Legislative Budget Committee during the last two years and to make certain recommendations concerning future work of the Joint Legislative Budget Committee.

FULL REPORT—1945-1947

By the provisions of Joint Rule No. 37 the Budget Committee is a continuing committee dealing constantly with matters "concerning the State Budget, the revenues and expenditures of the State and of the organization and functions of the State, its departments, subdivisions and agencies with a view of reducing the cost of the State Government, and securing greater efficiency and economy."

During the past two years the committee has been concerned with all of these matters. It has had its Legislative Auditor and staff studying state revenues, the expenditures of the several departments, the organization and procedure and operation of the various agencies of the State in order to forward the purpose of the committee.

BUDGET AND APPROPRIATION BILLS MAJOR TASK

Our primary activity, as previously reported in our partial report, has dealt with the State Budget and Appropriation Bills. A great deal

of preliminary work had to be done before it was possible to work effectively on the Budget and appropriations. A continuous check of all departments is also necessary to see if the appropriations as approved by the Legislature are actually expended as the Legislature intended.

The committee instructed the Legislative Auditor to devote himself and his staff primarily to the State Budget but to do such studies as would yield information useful in considering the Budget and special appropriation bills. Many studies have been conducted in the past two years concerning the operations of the State, preliminary to the analysis of the Budget. This information was used in the Budget hearings and in hearings on reorganization of departments of the State and in connection with special appropriation bills and further expansion of state services.

We have already reported, in the partial report published in the Senate Journal above referred to, on the cooperation rendered the Governor's Budget makers in relation to the Budget. This work resulted in a reduction of the Budget at the time it was formulated. We feel that the Budget itself as submitted to the Legislature was materially smaller and better balanced because of this assistance.

BUDGET HEARINGS BEFORE LEGISLATIVE COMMITTEES

After the Budget analysis and report was prepared the Legislative Auditor and his staff continued to work on these matters, particularly with the Finance Committee of the Senate and the Ways and Means Committee of the Assembly. Assistance was rendered these committees in considering the Budget, help with hearings, participating therein and assisting in the preparation of reports for the several subcommittees. Information was provided the subcommittees wherever they requested it.

CONTROL IN BUDGET BILL

Technical assistance was rendered in suggesting and drafting amendments to the Budget Bill. An examination of the Budget Bill as it was first introduced and as it was finally passed by the Legislature will at once show that a large number of controls in relation to expenditures were written into this document. These were to a large extent suggested by the staff of the Budget Committee. These controls are in line with the general principles adopted from time to time by the Budget Committee.

BUDGET EXPEDITED

It is our feeling that consideration of the Budget was materially forwarded and improved not only through the analysis of the Budget provided by the Budget Committee, but also by the assistance rendered to the several committees and subcommittees of the Legislature dealing with the Budget Bill.

The Legislative Auditor was requested to give his recommendation in relation to each item of appropriation for each department and agency of the State provided for in the Budget Bill. This was considered in connection with the recommendations of the Director of Finance and the committees and the Legislature had an opportunity to consider this information as the basis for its decision. This procedure we believe has many advantages and we recommend its continuance and enlargement.

BUDGET COMMITTEE TASKS INCREASE WITH BUDGET

This is the third Budget the Joint Legislative Budget Committee has considered and the first annual Budget. This is also the largest Budget the State has ever had. The work of the Legislative Budget Committee has increased with the increased size of the Budget. Now with an annual Budget the work of the committee is approximately doubled. This condition will continue and now with the Legislature adjourning in the last part of June, there will be but a short period of time before the Legislative Budget Committee and staff must be concerned with the Budget for 1948-49.

It is the sincere hope of the Budget Committee that further progress can be made in expediting the consideration of the Budget so as to get it out of the way earlier in the session. This will release the log jam of special appropriation bills. Steps have already been taken along this line. One suggestion which we believe will be materially helpful is that all members of the Budget Committee from the Senate should be on the Finance Committee, and all Members from the Assembly should be on the Ways and Means Committee. This would provide a nucleus of legislators in each house familiar with the Budget and its preparation at the time it was introduced.

The Budget Committee is also taking steps to encourage the production in the first instance of as good a Budget Document as is possible and to assist in as full a consideration as is possible of all requested appropriations. The committee has instructed the Legislative Auditor to this effect.

Reference to the Budget Document for 1947-48 and the recommendations concerning it found in the Budget Analysis covering the 1945-47 Budget will show that many of the recommendations made on behalf of the Budget Committee have been carried into effect so that the Budget Document for 1947-48 is much improved. There has also been a closer administration through budgetary control of expenditures as set up in the Governor's Budget than has been evidenced in prior years. The Budget Committee has insisted that this should be the case, and we are assured that there will be as close adherence to the 1947-48 Budget as is practical. This procedure makes it all the more necessary that the Budget Document in the first instance should be well considered. It has been our endeavor to insist on this and to cooperate in making it effective.

The consideration of the Budget and appropriation bills by the Legislature at the budget session next March, 1948, will present some additional problems. Provision is not made for a recess during which time previously the Budget Committee has been enabled to consider the Budget Bill. A revised procedure is now being considered to meet this situation.

LEGISLATORS' BUDGET JOB LARGER

The task of each legislator, considering the Budget annually, has likewise been increased. The Budget Committee believes that by bringing the Legislature a better Budget Document through the assistance we render, providing a comprehensive analysis of the Budget, thereby giving the Legislature information which we know to be reliable and in which we have confidence, that we can serve you and the people in the most

valuable way. The committee has tried to have its staff prepared to provide all fiscal information whenever it is desired, so that facts might be before the Legislature in order to act intelligently on all fiscal matters, both in the Budget and in the many appropriation bills. This service will be more complete as the files of the Legislative Budget Committee are expanded.

STUDIES AND REPORTS

In our preliminary report we stated that other studies made on particular matters of government operation, expenditures and organization would be reported to you as well as an account of other actions of the committee.

35. Administrative procedures in relation to the functioning and rule making of boards and commissions.
36. The length of the veteran education problem.

These are only the major specific studies that have been made. Many other numerous smaller studies have been carried out. All of these studies have yielded information affecting state expenditures, the organization of State Government, or efficiency in the operation of State Government, all within the purview of the Budget Committee. Each and every one of them has been used either in considering the Budget, special appropriation bills or in improvement in the state administration. Many of these reports have yielded definite and specific results.

Some of the minor reports were made to answer requests for information. Innumerable requests have been received for information on the agencies of the State, the cost thereof, the cost of government, the effect of taxes and, in fact, almost every other conceivable subject concerned with State Government. Answers have been supplied wherever this information was available and fell within the scope of the activity of the Budget Committee.

SOME RESULTS SECURED FROM STUDIES

While the committee does not claim full credit for economies and improvements achieved in the State Government following suggestions made by the committee and its staff for such economies and improvements, it does not hesitate to claim that it assisted directly in this matter. Frequently the suggestions made through the committee's operation resulted in large economies which have saved the State vast sums of money. These savings will accrue over the years. The committee believes that it assisted materially in initiating such action and frequently was the moving force.

Some definite improvements and savings in printing costs resulted from the Printing Plant study. This agency has been completely reorganized. A new State Printer was appointed and more businesslike management established. We believe that additional results can be secured from this agency in the future.

The mechanization of motor vehicle registration flowed directly from the report on this subject prepared jointly for the Budget Committee and the Senate Committee on Governmental Reorganization. This mechanized procedure was studied out completely and to the closest detail by our staff even to the floor location of equipment.

The bills providing for this system were drawn by the employees of the Legislative Budget Committee and sponsored by the committee, together with the Senate Committee on Governmental Reorganization. The Legislature approved the plan, appropriated the necessary funds, and it is now being installed. The added service alone to the public by this system will justify the expenditure; but in addition to this, on the

basis of the same work performed manually, there will be a large saving, probably approaching \$250,000 a year.

Other installations of mechanized accounting equipment in other departments will yield comparable results. Others will follow from this example. The published report on the mechanization of motor vehicle registration is in demand throughout the United States.

The report on the Department of Employment resulted in considerable improvement and in remedial legislation, saving the taxpayers many millions of dollars by reducing the tax.

The study of the Horse Race Board and the taxation of the proceeds of horse racing also provided information as the basis for remedial legislation.

The report on the DeWitt Hospital resulted in securing this institution, which, together with Hammond Hospital, has assisted materially in relieving the crowding in our mental institutions.

Many other reports have resulted in material improvements in government and in economies producing very large savings. The committee will not take time or space to detail these results. They are already known to many of you and many of them you have encountered in the consideration of the State Budget and others you will find in the operation of state departments and agencies.

SERVICES TO OTHER LEGISLATIVE COMMITTEES

We have previously mentioned the services rendered to the Senate Finance and the Assembly Ways and Means Committees and the subcommittees thereof. The Legislative Budget Committee at its second meeting in December, 1941, instructed the Legislative Auditor to render such services as were possible and consistent with his duties to other legislative committees. This has been done continuously and the information supplied and the additional information secured through this cooperation has been used to carry out the duties of the Budget Committee.

Assistance was rendered to the Joint Agriculture and Livestock Problems Committee in its study of the agricultural operations of state institutions and also in its consideration of the hide and brand inspection law and procedure and costs, and also it was supplied information in regard to the operation of the State Fair.

Information was provided the Joint Committee on Highways, Streets and Bridges. We also assisted with information for the Assembly Committee on County and City Jails. On several occasions information, research, and investigatory service was rendered the Governmental Efficiency Committee of the Assembly. Information was rendered the Senate Committee on State and Local Taxation. Other services were rendered to numerous committees where financial matters, governmental organization, auditing and other procedures affecting the efficiency of government were under consideration. We will not attempt to list these numerous items.

ASSISTANCE AND COOPERATION RENDERED STATE AGENCIES

The Legislative Auditor was instructed to render such services and cooperation to the state departments in studying their fiscal problems

as was consistent with the constitutional division of the functions of government. Such assistance was for the purpose of securing information consistent with the purposes of the Budget Committee and useful in making recommendations to the Legislature subsequently for necessary and remedial legislation.

Through studying these matters at first hand and getting the views of the administrative officers of the several departments, the Legislative Auditor is then able to report to the Budget Committee and the Legislature his conclusions on all such matters. The Legislative Auditor is also in a position to inform the agencies of the State what action the Legislature has previously taken on such matters and what recommendation he will make to the Legislative Budget Committee. This procedure frequently initiates the consideration of matters on the basis of the Legislature's previous action and intent. Large values have been secured in relation to the Budget and the building program through this procedure.

The Legislative Auditor on instructions from the Budget Committee has worked closely with the Director of Finance in the preparation of the Budget and in the estimates of the revenue of the State and in the consideration of the original plan for state buildings and the modification thereof due to increase in price and changing conditions of the State. Close cooperation is maintained on all fiscal matters. We have already outlined the operations in connection with the State Budget.

In relation to the building program the Director of Finance formed an unofficial committee consisting of a representative of his own department in addition to himself, the State Architect, the representatives of the several departments interested in state buildings, a representative of the Taxpayers' Association and the Legislative Auditor. This committee during the past two years has conscientiously studied the entire building program. The recommendations made by the Director of Finance have come from this study. In this way the Legislative Budget Committee has had available precise and accurate information on each and every building project of the State. We believe it has been demonstrated at this session during the consideration of appropriations for capital outlay and in setting up of reserves therefor that the Legislature has had available accurate and reliable information on all these matters sufficient for the basis of an intelligent decision.

The procedure in allocating of funds for building, controlling the timing of building and the priority of each has resulted from the functioning of this program in which we have participated. The Budget Committee staff has become intimately familiar with the institutions of the State and their building needs. Between each session the staff makes an inspection of each institution.

Members of the staff have served on other interdepartmental committees considering such matters as personnel, pay rates, pay roll procedure, purchasing, property control and the payment of vendors. These surveys involve the operation of the Department of Finance, the Personnel Board, the Controller's office and other offices. This function has been for the purpose of assisting in improvements that will result in economies and efficiency in the operation of State Government. Such assistance and services were also rendered in connection with the Motor Vehicle Department. Numerous other like services were rendered which

we will not detail here. A resolution is now pending requesting the Budget Committee continue to cooperate in the matter of pay roll procedure.

BUDGET COMMITTEE BILLS

Out of the numerous studies conducted and the functioning of the Legislative Auditor and in line with the general instructions of the Budget Committee, numerous suggestions for remedial legislation have arisen. Some 25 bills were introduced into the Legislature as follows:

Some of these bills were introduced on the basis that all wartime agencies should be abolished and the matter should be brought before the Legislature. Other bills were in line with general procedure of the committee fostering economy and efficiency and others were to correct abuses found in the studies conducted.

Some of these bills were tabled at the request of the Budget Committee after they were considered in connection with other bills before the Legislature. Other bills were amended as appeared to be most desirable. Final action has not yet been taken on all these bills. At the present date 12 of them have been approved by both houses. Eight of these have been signed by the Governor and four have been vetoed. The bills that have been vetoed are ones eliminating the authority of the Director of Finance and the Governor to allow deficiencies in the Motor Vehicle Fuel Fund, State Lands Fund and the State Park and Beach Funds. The Governor stated that this elasticity was desirable. The Budget Committee has held that now with an annual Budget closer control of State expenditures by the Legislature can be made effective, and for this reason

such control should rest in the Legislature and continuing appropriations should be eliminated.

This general principle has been followed in these bills, and they provide for the elimination of continuing appropriations wherever possible and return to the Legislature full control over appropriations.

Some of these bills approved will save the State large sums of money. Others will materially increase efficiency. The bills in relation to sick leave of state employees will go a long way to eliminate long standing abuses. No one can say just how much these measures will save or what will be the benefit through increased efficiency, but we are satisfied that there will be material results in both lines.

RESULTS JUSTIFIED PROCEDURE OF BUDGET COMMITTEE

Your Committee believes that there is general agreement that the results secured through the operation of the Committee have amply justified it. Moreover, there are very large results that flow from the very existence and operation of the Committee and its staff which cannot be seen. We believe that large benefits result merely from the fact that the Legislative Budget Committee is in existence and that it has a Legislative Auditor and staff to make audits, investigations and studies and to make reports to the Legislature and ultimately find its way into remedial legislation. Many improvements in government will result merely from the fact that attention is directed to the possibility of improving the function of many state agencies. Irregularities and losses which might have occurred will not occur with such an agency in existence.

Original budget requests from the departments and agencies of the State we believe have been and will be more nearly in line when they are first presented than they would have been if they were not subjected to the scrutiny of the Budget Committee staff. Further reductions are made in the hearings on the Budget through the participation of the representative of the Budget Committee. What is even more important, the allocation of funds in the Budget is better balanced and subsequently the coordination of special appropriation bills with the Budget is secured through the fact that the Legislative Auditor as well as the Department of Finance watch this matter and call it to the attention of the several committees. In addition to this, the legislative intent is continually expressed and notice thereof is frequently incorporated into the Budget Bill and in special appropriations.

Following the original determination of the Budget Committee, the Legislative Auditor continually observes the functioning of all new agencies and expansion of existing agencies and reports back to the Legislative Budget Committee as to their costs and efficiency and the services they render. The Legislature has this information before it for appropriate action.

GENERAL COOPERATION SECURED

The Budget Committee is happy to report that it has received the fullest cooperation from the Department of Finance, the Personnel Board, the Department of Public Works and most other departments and agencies of the State Government. Information and assistance has been rendered generally wherever requested. The assistance of the State

Employees' Association and individual state employees and the general public has also contributed much to our success.

The committee has not had to make use of the subpoena of a witness or of documents in a single instance during its existence since 1941.

The committee wishes to take this opportunity to thank the many state officers and employees who have cooperated and supplied information for the Budget Committee and its staff. In particular it wishes to compliment the state employees and to say that in general there have been surprisingly few irregularities encountered and in most instances there has been a ready acceptance of suggestions for improved methods of procedure and a full endeavor to make reasonable economies and improved procedure effective.

Respectfully submitted.

Senate Resolution No. 75, as Amended

Relative to the creation of a Senate Fact-Finding Committee on Un-American Activities, to investigate the activity of persons and groups known or suspected to be foreign dominated or controlled and to recommend legislation for their regulation

WHEREAS, These are yet times of public danger. Subversive persons and groups are endangering our domestic unity so as to leave us unprepared to resist attack from without or within. Under color of the protection afforded by the Bill of Rights these persons and groups seek to destroy our freedom by force, violence, threats, undermining and sabotage, and to subject us to the domination of foreign powers and ideologies; and

WHEREAS, There is danger that the ordeal through which the Country has suffered to keep the pursuit of its ideals free may be in vain; and

WHEREAS, Persons and groups, motivated by hatred of American ideals, our republican form of government and democratic processes, some bound together by allegiance to foreign powers, are even now seeking to achieve by subversion what we have so valiantly fought to sustain from force; and

WHEREAS, California, as one of the laboratories of this great Nation, may profitably study the problem within its boundaries, and enact pertinent legislation therein, if facts are available therefor; and

WHEREAS, State legislation to meet the problem and to assist law enforcement officers can best be based on a thorough and impartial investigation by a competent and active legislative committee; now, therefore, be it

Resolved by the Senate of the State of California, That

1. The Senate Fact-Finding Committee on Un-American Activities is hereby created and authorized and directed to investigate, ascertain, study and analyze all facts directly or indirectly relating to the foregoing, to the activities of groups and organizations whose membership include persons who are members of organizations who have as their objectives, or part of their objectives, the overthrow of the governments of the State of California or of the United States by force and violence or other unlawful means, all organizations known or suspected to be dominated or controlled by a foreign power which activities affect the conduct of this State in national defense, the functioning of any state agency, unemployment relief and other forms of public assistance, educational institutions of this State supported in whole or in part by public funds, or any political program, or which may affect the conversion of the State from a wartime economy to a peacetime economy or affect the economic and social problems incidental thereto, including but not limited to the operation, effect, administration, enforcement and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution, and to report thereon to the Senate.

2. In addition to the foregoing, the Senate Fact-Finding Committee on Un-American Activities is authorized and directed to ascertain, study and analyze all facts relating to the activities of persons and groups known or suspected to be dominated or controlled by a foreign power, and who owe allegiance thereto because of religious, racial, political, ideological, philosophical, or other ties, including but not limited to the influence upon all such persons and groups of education, economic circumstances, social positions, fraternal and casual associations, living standards, race, religion, political, ancestry and the activities of paid provocation and any other factors which may account for their conduct or condition their action, as well as the operation, effect, administration, enforcement and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution, and to report thereon to the Senate.

3. The committee shall consist of six Members of the Senate appointed by the Committee on Rules thereof. Vacancies occurring or existing in the membership of the committee shall be filled by the appointing power.

9. The committee, or a subcommittee or the chairman when authorized by a majority vote of the entire committee, may meet outside the State with similar committees of Congress or of the several states.

10. The sum of thirty thousand dollars (\$30,000), or as much thereof as may be necessary, is hereby made available from the Contingent Fund of the Senate for the expenses of the committee and its members and for any charges, expenses or claims it may incur under this resolution, to be paid from said Contingent Fund, and disbursed, after certification by the chairman of the committee, upon warrants drawn by the State Controller upon the State Treasurer.

FURTHER CONSIDERATION OF SENATE RESOLUTIONS

Senate Resolution No. 122—Relative to Senate Committee on State and Local Taxation to make inquiry into every phase of taxation, creating the committee and defining its powers and duties.

Resolution read.

Consideration of Committee Amendments

The following amendment was proposed by the Committee on Rules:

Amendment No. 1

In paragraph 8 of the resolution, after "of", insert "seventy-five thousand dollars (\$75,000)".

Amendment read, and adopted.

Senate Resolution No. 122, as Amended

Relative to a Senate Committee on State and Local Taxation to make inquiry into every phase of taxation, creating the committee and defining its powers and duties

WHEREAS, The economy of the State of California has during the recent years gone through a revolutionary change, so that industry has assumed an increased importance in relation to agriculture, mining, and commerce; and

WHEREAS, This change has resulted in bringing into the State industries and properties of large value which have not previously been considered in our tax structure, and has created new governmental problems; and

WHEREAS, The increased population incident to this change in our economy has also created new governmental problems and made new demands upon both local and state government; and

WHEREAS, The unprecedented growth of motor transportation and the change-over to the use of diesel fuel in motor transportation during the war period, together with the added population of our State and the concentration in industrial centers, has materially changed the requirements for the support of highways, streets, and bridges; and

WHEREAS, It appears that there may be large sums in the way of federal subsidies granted both to the state and local governments which will directly affect the revenue structure and will require careful examination to coordinate the disposition of these subsidies equitably into the entire revenue program of both state and local government; and

WHEREAS, From the beginning of the State's history, the ad valorem tax has been and still is the fiscal mainstay of local government and has not been adjusted to meet the new conditions; and

WHEREAS, The administration of taxation by the State and by the local governments has not been modernized, in fact has not been materially changed to bring it into line with present or prospective needs; and

WHEREAS, The relative burden of our several taxes on the different classes of taxpayers and different classes of property has not been fully determined; and

WHEREAS, There are new classes of property and rights that have grown up in the State that are not subject to taxation; and

WHEREAS, The acquisition, holding and exchange of land in this State by the United States of America has many aspects and involves varied and varying relationships, including the bearing and effect thereof upon taxes levied or leviable by the State and by local governmental units within the State; and

WHEREAS, Neither the State nor local governments have available to their legislative bodies information concerning all the varied phases of this problem adequate to legislative consideration and action in the endeavor to find and effect a solution; and

WHEREAS, For many years the burdens of government have been increasing both for the State and local governments, including many fixed charges not controllable by administrative bodies but brought about in answer to the demand of the people expressed in continuing legislation or in constitutional requirements, it is imperative that an appraisal be made so that revenues may be made adequate to meet the demands of government, both local and state, and the burdens of taxation may be equitably distributed upon and among the several classes of property and of taxpayers; now, therefore, be it

Resolved by the Senate of the State of California, As follows:

1. The Senate Committee on State and Local Taxation is hereby created, authorized and directed to ascertain, study, and analyze all facts relating to or in any way bearing upon any of the subjects mentioned in the recitals of this resolution, particularly including but not limited to each phase of each and every tax (as herein defined) imposed in this State by any governmental agency (state, local, or federal); the incidence and burden of each such tax upon property, business and the taxpayer and the ability of the latter to pay, also the productivity of each such tax in relation to its cost of administration and in relation to the purposes for which imposed, each of which factors of each tax the committee shall consider, weigh, appraise and evaluate with each such factor of every other tax; the bearing and effect upon state and local taxes and expenditures of the acquisition, holding and exchange of lands in this State by the United States; the present and prospective revenue needs of each agency of government and the most equitable means of meeting each such need, taking into

consideration all of the varied forms of tax now in use or that might be devised and put into use, and all existing sources of revenue and new sources of revenue that might be developed; administrative methods and procedures which now obtain in respect to each such tax and how they might be improved; present and prospective governmental expenditures of and the acquisition, management, use and disposition of properties by, each state or local governmental agency and the bearing thereof upon and relation to each and every form of tax now imposed or that might be devised and imposed; and the operation, effect, administration, enforcement, and needed revision of any and all laws in any way bearing upon or relating to the subjects of this resolution; and to report thereon to the Senate, including in the reports its recommendations for appropriate legislation.

FURTHER CONSIDERATION OF SENATE RESOLUTIONS

Senate Resolution No. 104—Relative to the creation of the Senate Committee on Employment Stabilization.

Resolution read.

Consideration of Committee Amendments

The following amendments were proposed by the Committee on Rules:

Amendment No. 1

In paragraph 3, page 4, of the resolution, after "analyze these," strike out "to the end that the Legislature may amend the statute in the light of these factual data, and to from time to time assist the Department of Employment to properly present and represent the California problems to the committees of Congress;"

Amendment No. 2

On pages 4 and 5 of the resolution, strike out paragraph 1, and insert:

"1. The Senate Committee on Employment Stabilization is hereby created and authorized and directed to ascertain, study and analyze all the facts relating to the fiscal administration of the Department of Employment covering the collection of taxes and the disposition thereof and the administrative handling and security thereof, both for unemployment insurance benefits and unemployment disability insurance benefits. The committee shall cause proper audits to be made and provide for spot checking of receipts and of payments of insurance and disability benefits, and it shall in particular make inquiry into the matter of proper safeguarding of the funds and payments of this department and into the adequacy thereof. In order to avoid duplication of effort and secure the values of previous investigation and knowledge of the department, the committee shall make use of the services and assistance of the Legislative Auditor and staff in conducting the audit herein described, and for this purpose the committee is empowered to reimburse the Legislative Budget Committee for such services.

If such investigation and audit indicates that the moneys provided by the Federal Social Security Board for administrative purposes, including audits, is insufficient this committee insofar as it is compatible with its legislative functions shall assist the commission in securing additional funds to set up better administrative procedures and shall assist the department in securing proper recognition at Washington for the purpose of securing sufficient administrative funds and shall endeavor to amend the federal law to provide for returning to California 100 percent of the unemployment

tax offset. The committee as a result of its study and analysis shall recommend needed revision of any and all laws in any way bearing upon or related to the subject of this resolution and shall report thereon to the Senate, including in such reports its recommendations for appropriate legislation."

Amendment No. 3

In paragraph 6 of the resolution, after "The sum of", insert "twenty-five thousand dollars (\$25,000)".

Amendments read, and adopted.

Senate Resolution No. 104, as Amended

Relative to the creation of the Senate Committee on Employment Stabilization

WHEREAS, On January 27, 1947, Honorable W. P. Rich, Chairman, Joint Legislative Budget Committee, sent a communication to the Senate, calling the members' attention to pertinent data respecting the administration of the State Unemployment Insurance Act and the Employment Service, wherein was pointed out that certain abuses were encountered in the administration of the Employment Stabilization Act, and many complaints had been received from the general public; and

WHEREAS, The files of the Budget Committee contain a great deal of information respecting the administration of the Department of Employment, the abuses encountered, and many complaints from employers and taxpayers, with specific recommendations for remedy; and

WHEREAS, These files and data are available to a Senate Committee, showing that the general claim is made that the administration is such that almost any claimant can get unemployment insurance benefit payments, and, that instead of stabilizing employment, it is frequently used to create unemployment; and

WHEREAS, On pages 365 and 387 of the Budget are found the items set forth by the Department of Employment as necessary for administration, showing:

Actual, Fiscal Year 1945-46	-----	\$6,682,739.08
Actual and Estimated 1946-47	-----	12,873,542.00
Estimated and Proposed 1947-48	-----	15,396,547.00

WHEREAS, On April 30, 1947, there were 4,513 personnel on the staff, while during Fiscal Year 1939-40 there were a total of 2,124 personnel on the staff, and it cost but \$3,346,277.73 to administer this same department; and

WHEREAS, All of the moneys used to pay unemployment insurance benefits and all of the moneys used to defray administration costs of the unemployment insurance phase of the act, come directly from the employers in California who are subject to the act; and

WHEREAS, The Legislature has a definite responsibility in providing for proper protection of these funds held in trust; and

WHEREAS, One thousand six hundred fifty-five (1,655) individuals are signing benefit checks in 118 local offices of the department, and large batches of unsigned checks are constantly in each local office without proper safeguard; and

WHEREAS, The Department of Employment has no means of knowing how many checks may be in any file at any time, nor how many or amount of checks may be outstanding against the benefit fund, nor who may be cashing these checks; and

WHEREAS, A loose system is used wherein no one can possibly know what may have become of numbers of checks sent from central headquarters, and no method has been used for tracing or knowing of improper signatures on these benefit checks for possibly some six months after they have been paid by the bank; and

WHEREAS, There are reports in effect that a large portion of the claimants drawing benefits are doing so in direct violation of statute and legislative intent; and

WHEREAS, It is reported that some special patronage method is used wherein certain individuals have been upgraded to better pay and higher classification, while older lists of better qualified employment service personnel were passed by upon the return of the employment service to state control; and

WHEREAS, The Department of Employment requires assistance in finding better methods of doing the job required of it without additional funds being made available to it, due to statements made that the Federal Security Administration fails to furnish sufficient funds, while all of these moneys are derived from the California subject employers in amounts far in excess of California's needs; and

WHEREAS, The Federal Government has collected from the California employers in ten years ending June 30, 1945, \$84,590,646.08, while during this same period of time the Federal Government has returned to California but \$29,632,776.26, (Fiscal Year 1945-46 \$14,210,329.78 were collected from California employers) and to date, the Social Security Administration has positively refused to provide funds for the proper audits as set forth in Section 26 of our act; and

WHEREAS, It is necessary that a complete audit be made of all moneys and spot checking of claimants to determine how many have received unemployment insurance

benefits unlawfully, how much it has cost the fund for lost, stolen and unlawfully paid checks and benefits, in order to provide proper methods for paying benefits, accounting and administering; and

WHEREAS, The referees have a back-log of 6,339 appeals cases pending, and the appeals board has a back-log of 894 appeals cases pending as of April 30, 1947; and

WHEREAS, There is a large back-log of fraud cases pending; and

WHEREAS, It is the responsibility of the Legislature to gather all pertinent factual data respecting employment, unemployment, unemployment insurance and unemployment disability insurance into a central file and properly and intelligently analyze these; now, therefore, be it

Resolved by the Senate of the State of California, As follows:

1. The Senate Committee on Employment Stabilization is hereby created and authorized and directed to ascertain, study and analyze all the facts relating to the fiscal administration of the Department of Employment covering the collection of taxes and the disposition thereof and the administrative handling and security thereof, both for unemployment insurance benefits and unemployment disability insurance benefits. The committee shall cause proper audits to be made and provide for spot checking of receipts and of payments of insurance and disability benefits, and it shall in particular make inquiry into the matter of proper safeguarding of the funds and payments of this department and into the adequacy thereof. In order to avoid duplication of effort and secure the values of previous investigation and knowledge of the department, the committee shall make use of the services and assistance of the Legislative Auditor and staff in conducting the audit herein described, and for this purpose the committee is empowered to reimburse the Legislative Budget Committee for such services.

If such investigation and audit indicates that the moneys provided by the Federal Social Security Board for administrative purposes, including audits, is insufficient this committee insofar as it is compatible with its legislative functions shall assist the commission in securing additional funds to set up better administrative procedures and shall assist the department in securing proper recognition at Washington for the purpose of securing sufficient administrative funds and shall endeavor to amend the federal law to provide for returning to California 100 percent of the unemployment tax offset. The committee as a result of its study and analysis shall recommend needed revision of any and all laws in any way bearing upon or related to the subject of this resolution and shall report thereon to the Senate, including in such reports its recommendations for appropriate legislation.

3. The committee is authorized to act during this session of the Legislature, including any recess, and after final adjournment until the commencement of the 1949 Regular Session, with authority to file its final report not later than the fifteenth legislative day of that session.

4. The committee and its members shall have and exercise all of the rights, duties and powers conferred upon investigating committees and their members by the provisions of the Joint Rules of the Senate and Assembly and of the Standing Rules of the Senate as they are adopted and amended from time to time, which provisions are incorporated herein and made applicable to this committee and its members.

5. The committee has the following additional powers and duties:

(a) To select a chairman and a vice chairman from its membership.

(b) To contract with such other agencies, public or private, as it deems necessary for the rendition and affording of such services, facilities, studies and reports to the committee as will best assist it to carry out the purposes for which it is created.

(e) To do any and all other things necessary or convenient to enable it fully and adequately to exercise its powers, perform its duties, and accomplish the objects and purposes of this resolution.

(f) To meet at the State Capitol or at any place within the State or within the United States.

6. The sum of twenty-five thousand dollars (\$25,000) or so much thereof as may be necessary is hereby made available from the Contingent Fund of the Senate for the expenses of the committee and its members and for any charges, expenses or claims it may incur under this resolution, to be paid from the said contingent fund and disbursed, after certification by the chairman of the committee, upon warrants drawn by the State Controller upon the State Treasurer.
